

TOTAL WAR™ WARHAMMER®

It is an age of endless conquest, thousands of warriors clash in titanic battles as entire races wage war on one another, each led by a formidable hero seeking dominion over the world.

All at your command.

The valiant **Karl Franz** marshals the men of the Empire, seeking to unite the fractured elector countries under a banner of strength against their common enemies.

Craving for the vicious brutality of combat, the Greenskins flock to the tribe of **Grimgor Ironhide**; Orcs and Goblins alike filled with an insatiable thirst for carnage.

High King **Thorgrim** orders the stoic Dwarfs forth from their mountain strongholds, marching to vengefully right the grave injustices dealt to them over the millennia.

Yet the motives of the Vampire Counts under **Mannfred von Carstien** are shrouded in murderous secrecy, his armies raised from the rotting ranks of the dead.

And while the Old World becomes torn by betrayal, war and the unleashing of unfathomable power, a greater threat still whispers in the winds from the north. The fabric of reality itself begins to fray and buckle...
