WARNINGS Read Before Using Your Sega Dreamcast Video Game System

CAUTION

Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, **IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.**

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Sega Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Sega Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

Setting up the game

Hoyle Casino is a one to four player game. Purchase additional Sega Dreamcast Controllers (sold separately) to play with two or more people.

Before turning the Sega Dreamcast power ON, connect the Sega Dreamcast Controllers into the control ports of the Sega Dreamcast. You must always connect a controller to Port A, but may connect other controllers to any available Port.

If you have a memory card, it's recommended that you insert it before turning the power ON; see page 4 for details.

Controls

General controls within this game are described below. For help on specific controls within a game, see the section for that game in this Instruction Manual.

To return to the title screen at any point during game play, simultaneously press and hold the A, B, X, Y and Start Buttons. This will cause the Sega Dreamcast to soft-reset the software.

Using a memory card

With a Visual Memory Unit (sold separately), you can save any new players you create, including player bankrolls and statistics. Built-in players can't be saved. To save player files, the memory card must have at least 12 blocks of free space per player.

Insert the memory card into Expansion Socket 1 of the controller in Control Port A; be sure to use Control Port A. Insert the card before turning the power ON, if possible; if you insert it when the Sign In window is open, saved players aren't immediately visible.

Player information is saved whenever you leave a game; before shutting off the Sega Dreamcast, be sure to exit the current game or return to the casino floor, or your player information may not be saved.

Note: While saving a game file, never turn OFF the Sega Dreamcast power, remove the memory card or disconnect the controller.

Using a Jump Pack

A Jump Pack (sold separately) can provide a vibration effect that enhances your Hoyle Casino experience. You can turn off the vibration; see "Changing casino options" on page 7. Insert the Jump Pack into Expansion Socket 2 of the controller, as shown at the right.

Note: When the Jump Pack is inserted into Expansion Socket 2 of the Sega Dreamcast Controller, the Jump Pack connects, but does not lock. If the controller is jarred, the Jump Pack may fall out during game play or otherwise inhibit game operation.

If two or more players are tied for the highest tournament bankroll when the tournament is set to end, the tournament continues until the tie is broken.

Credit cards and loans

Each player in Hoyle Casino has a credit card reflecting that player's status with the casino. New players start with a green credit card and can advance to cards with higher credit levels by winning money. The higher your credit level, the more you can borrow from the casino.

You cannot save credit card information between play sessions unless you have a memory card, and then you can only save it for players you created, not for the built-in players.

Getting and repaying loans

If you run out of money during a game, you're asked if you want to take a loan. You can also visit the Cashier to ask for a loan. The Cashier has two locations on the casino floor; one is at the back right side of the main floor.

There are some situations in which you will not be offered a loan. You can't get a loan if you already have a loan outstanding, if you are playing in a tournament, or if the casino decides you already have enough money and don't need to borrow more.

You can repay a loan at the Cashier at any time.
