

# HANG-ON

A GAME THAT SURPASSES THE CONCEPT OF WHAT A GAME SHOULD BE!

SEGA®

"HANG-ON" is a first of its kind in the world, a motorcycle simulator game. Completely new and different from any conventional machine, it features both the realism that one experiences when riding a "real" motorcycle and the maximum in game enjoyment that only comes when you are competing in a hotly contested race. For that once in lifetime thrill, hop on the "HANG-ON" and roar away.

## GAME FEATURES

- In the "HANG-ON" game, you maneuver the motorcycle shown on the screen by actually using various riding techniques.
- The player can fully enjoy the exciting realism of racing by making full use of riding techniques such as HANG-ON, SLOW-IN FAST-OUT, OUT-IN-OUT, etc.
- The course is comprised of 5 stages i.e., ALPS, GRAND CANYON, CITY NIGHT, SEASIDE, and the CIRCUIT. Beautiful scenery vividly depicted on the video screen makes the racing atmosphere even more pleasant and exciting.
- "HANG-ON" is equipped with 4 built-in stereo sound speakers. Its exhaust sound and the roar emitted when passing your competitors are both extremely authentic.
- Features the precise simulation of many realistic techniques not only for the player but also for the on-screen competitors' motorcycles.

- Moving your weight quickly results in skillful cornering, thus enabling you to score many points. Beware of coming into contact with the competitor's motorcycle, going off the course, and colliding with obstacles outside the course.

HOW-T

- When a competitor's motorcycle shown on the screen goes into a curve, its brake light will go on. Skillful cornering comes as a result of the player's taking appropriate action at just the right moment.

# MOTORCYCLE RACING GAME !!

- There are a total of 5 STAGES on the course. Passing the checkpoint that appears every time a STAGE is cleared will earn you additional time. The game ends when there is no more time remaining.

O-PLAY

- Turn the START switch ON to begin the race.

- Accelerating and braking are identical to that used when riding an actual motorcycle. Turning the right-hand grip towards you will result in increasing the speed and returning it towards the original position, a decrease in speed. Also, attached to the right-hand side speed grip is the braking lever.

- The player drives the motorcycle along the course shown on the screen. When taking a corner that curves to the right/left, shift your weight to the right/left side so as to bank the motorcycle by utilizing the HANG-ON technique.

ALPS

GRAND CANYON

CITY NIGHT

SEASIDE

CIRCUIT

# HANG-ON

WITH REALISM THAT YOU WOULD EXPECT TO FIND IN A TRAINING SIMULATOR AND NOT A GAME, IT'S SURE TO BE ANOTHER FIRST FOR SEGA IN THEIR NEVER ENDING QUEST TO UPGRADE TODAY'S GAME STANDARDS WITH TOMORROW'S FEATURES.

## SPECIFICATIONS

### RIDE ON TYPE

Dimensions	
• Motorcycle & base:	78 in., 199 cm. (D) 63 in., 161 cm. (W) 52 in., 133 cm. (H)
	529 lbs., 240 kg. (Weight)
• Base:	59 in., 150 cm. X 47 in., 120 cm.
Microprocessors	16-bit X 2; 8-bit X 1
Color display capacity	32-K colors
Program memory capacity	192-K-byte
Graphic memory capacity	512-K-byte
Stereo sound	DA sound system
Stereo music	FM sound source
4 built-in speakers	6.3 in., 16 cm. X 2; 2.8 in., 7 cm. X 2
Power	To conform to your country's standards for voltage/cycles; 190W (130W when in a standby condition).

As the base is provided with casters, it is easy to move the machine when installing.

### UPRIGHT TYPE

Dimensions	38.6 in., 98 cm. (D) 24.8 in., 63 cm. (W) 72.8 in., 185 cm. (H)
Weight	253.5 lbs., 115 kg.
Microprocessors	16-bit X 2 8-bit X 1
Color display capacity	32-K colors
Program memory capacity	192-K-byte
Graphic memory capacity	512-K-byte
Stereo sound	DA sound system
Stereo music	FM sound source
Speakers	4.7 in., 12 cm.; 20W X 2
Power	To conform to your country's standards for voltage/cycles; 220W (205W when in a standby condition).

### SIT-DOWN TYPE

Dimensions	61.8 in., 157 cm. (D) 24.8 in., 63 cm. (W) 64.2 in., 163 cm. (H)
Weight	269 lbs., 122 kg.
All other specifications are the same as those of the above UPRIGHT type.
