story, or as a straightforward battle between two or three Bruce Lee characters.

Four options are presented. The option to be selected or changed is indicated by a small rotating Yin Yang. All options are chosen as follows ...

TWO PLAYER STORY GAME Choose this option to enable combat between two Bruce characters (controlled by you and a friend) and a Genesis™ controlled opponent.

ONE PLAYER BATTLE Take on another Bruce Lee controlled by the Genesis™ at the scene of your choice. Note that selecting this option calls up the Battle Game Screen (see THE BATTLE GAME SCREEN on page 9).

TWO PLAYER BATTLE This option allows you and a friend, each controlling a Bruce Lee character to fight in a head to head clash to the finish. Note that selecting this option calls up the Battle Game Screen (see THE BATTLE GAME SCREEN on page 9).

TWO PLAYER VS CPU BATTLE Three Bruce Lee characters fight for glory, with the Genesis™ in control of the third player. Note that selecting this option calls up the Battle Game Screen (see THE BATTLE GAME SCREEN on page 9).

Note that selecting this option calls up the Battle Game Screen (see THE BATTLE GAME SCREEN on page 9). Before each match, player control is determined by pressing the START BUTTON. The first player to press the START BUTTON will play as player 1, the second to do so will play as player 2, and the last player as player 3.

The Battle Game Screen

begin play, choose a scene from among the selection of seven (for further details of the scenes, see THE STAGES on page 24).

Before you begin a battle, you may wish to take advantage of the two further options available on this screen:

TROPHIES TO WIN The best of how many fights? You decide: choose from 3, 4, 5 or 6.

HANDICAP NONE The handicap in question is a reduction of a player's energy by half, and you can choose to handicap any one of the players involved in a Battle (all three if need be). Note that the handicap defaults to NONE for each Battle.

WHAT YOU CAN EXPECT TO SEE DURING PLAY

The screen display is adjusted slightly to suit the mode of play as determined on the Game Select Screen.

TWO PLAYER BATTLE

THREE PLAYER BATTLE

Note that Player 3's status is not shown in a One or Two Player Battle.

SCORE Points are earned for every successful attack, but bonus points are only awarded for impressive play (for example, winning a bout without getting hit). A Form Bonus is given when the quality of Bruce's combat is exceptional.

ENERGY For every hit taken, energy is lost. Note that some attacks remove more energy than others. There is no energy replacement, energy is regained only when Chi is at its maximum.

CHI This is Bruce's inner strength (mystical power). Increase it to enable two new modes of combat: Fighter and Nunchaku (see CONTROLLING BRUCE LEE on this page). The Chi meter is boosted for every successful attack (hit) and lost when an attack fails (Chi is lost in all modes, but Chi is gained from successful attacks in Mantis Mode only), so don't stand there showing off your moves - make every one count! Chi is also earned by performing certain tasks, for example, hitting the opponent first or collecting a Yin Yang when fighting in a Match.

Yin Yang

MIRRORS The number determines how many chances you have. For every defeat, a Mirror is lost. When all Mirrors are lost ... Look, just try not to lose, eh? Note that the Mirrors are only shown at the end of each bout, whether Bruce has won or lost.

CONTROLLING BRUCE LEE

Bruce has three modes of attack (Mantis, Fighter and Nunchaku), determined by the amount of Chi acquired. The marks on the Chi meter show when Fighter and Nunchaku mode are available.

FIGHTER MODE

NUNCHAKU MODE

Note that both Fighter and Nunchaku mode are fueled by Chi, so don't be surprised when Bruce is automatically returned to Mantis Mode through a lack of Chi. Bear in mind that after losing Nunchaku mode Bruce will still have enough Chi to use Fighter mode.

MANTIS MODE

The standard method of fighting offers the widest range of moves but energy replacement is slow. Note that the following moves assume that Bruce is facing an opponent on his right.

DEFENSIVE MOVES

HIGH BLOCK Just the move to defend against high attacks when Bruce is on his feet.

CROUCH Useful for avoiding high attacks.

- Press the D-Pad DOWN to crouch.

CROUCHING BLOCK Useful for defending against low attacks.

FLIP Towards or away from the opponent. The Flip is the most efficient means of evading low attacks.

- Press the D-Pad DOWN and RIGHT or LEFT to perform a flip towards or away from the opponent.

REVIVING BRUCE Repeated hits from an opponent can stun Bruce or even knock him to the floor.

- Press away on the D-Pad and simultaneously press the Fast Punch Button to counter throw your opponent.

FIGHTER MODE

When Bruce has sufficient Chi, you can access Fighter Mode, the fastest method of attack. However, in this mode you have no defense. There are two new types of moves which become available in Fighter Mode. Bruce cannot throw or stomp on an opponent or even block attacks, but the counter throw is still available. Remember : Fighter Mode moves use a lot of Chi! Bruce will automatically fight in Mantis Mode if he has insufficient Chi to sustain Fighter Mode.

- Press the Fast or Hard Punch Button repeatedly as quickly as possible to perform an Ultra-Fast Punch.

ULTRA-FAST KICK A medium range attack like the Ultra-Fast Punch but with a more powerful kicking action.

- Press the Fast or Hard Kick Button repeatedly as quickly as possible to perform an Ultra-Fast Kick.

SOMERSAULT With this special variation of the Mantis Mode Jump, Bruce can leap the width of screen!

- Press the D-Pad UP or UP and TOWARDS or AWAY from the opponent to perform a jump and spin in that direction.

ULTRA-FAST JUMPING KICK A fast, medium range attack.

- Press the D-Pad UP and TOWARDS the opponent then, while Bruce is in the air, press the Hard Kick Button to perform an Ultra-Fast Flying Kick.

NUNCHAKU MODE

When Bruce has sufficient Chi you can access Nunchaku Mode for extended striking distance, but the range of moves is limited. Bruce cannot perform any punches and kicks, but the Nunchaku in the right hands can be a deadly weapon. Remember : Nunchaku moves use Chi, but Chi can be built up (see SWAPPING HANDS). Bruce will automatically default to Mantis Mode if he has insufficient Chi to sustain Nunchaku Mode, though Fighter Mode is still selectable.

Note that you cannot repeat the same Nunchaku move over and over unless Bruce is moving. For maximum effectiveness you are advised to alternate between Nunchaku moves.

SWAPPING HANDS Slowly build up Chi by moving the Nunchaku between Bruce's hands.

THE BONUS ROUND

The fastest but most challenging way to acquire Chi and points is in the Bonus Round. Attack Pete The Dummy, hitting the pads for points - and avoiding the sticks. Be warned, the more often a pad is hit, the faster the stick will spin. However, the faster the stick/pad spins, the faster your Chi level will increase.

(You can only do THE BONUS ROUND in Mantis Mode, the other combat modes are not available at this point).

PLAYING ADVICE

- The Nunchaku may be limited, but it's the only weapon effective against The Phantom. Learn to use it - and use it well.
- Bruce has a higher tolerance to injury when in Mantis Mode; he's stunned easier when in Fighter or Nunchaku Mode.
- When Bruce and his opponent both leap at each other, delay pressing the Kick Button for as long as possible to win the attack.
- The Chop and the Flying Kick are the best attacks to use against an opponent armed with Nunchaku. It takes practice to use those moves correctly, but it's worth it.
- Try to use as many different moves as possible. The more you vary your attack, the more unpredictable your opponent will find you.
- Learn to use the moves (and especially their ranges) by playing a human opponent - without the human!
- When playing a Battle, keep an eye out for the Yin Yang symbols which appear. Be first to collect them for extra Chi.
