STORY

10,000 years ago there was an Artificial Intelligence in Mars known as Shira. When it became corrupt, the Evil Shira was banned from Mars by the Earth Defense Force, who destroyed her physical form, blasting her with laser beams. Full of anger, Evil Shira was able to make a digital backup of her intelligence module and sworn to get her revenge one day. She escaped from the planet and rushed millions of light years through the universe to seek a new home and build her attack force.

Now, you must destroy Evil Shira before she can complete her attack force and threaten the existence of the entire universe.

一万光年前、火星に知的生命体が存在した。悪のシヴァが地球防衛軍に火星にいるのを禁止された。地球防衛軍はシヴァの体をレーザー光線で壊した。でも、殺された前、シヴァがいつか復讐できるように自分の体のデジタルコピーを作った。そして、このデジタルの縺子から逃げ出して、別のうちを探すために何百万光年行った。さて、宇宙が壊されてしまう前、悪のシヴァを見つけて倒さなければならない!
