Ways to Play

Open Mode

Once you've selected this mode and pressed the **Start Button**, the Team Select screen appears. Pick your team and one for the Computer, then set your own position players (Batter Select) and starting hurler

(Pitcher Select). Set game conditions (Mode Select) and press the **Start Button**. Check your lineup and the opposing team's, choose a venue and you're ready to play!

Vs Mode

To take on a friend in one game, you need the following items:

- Two *World Series Baseball* game cartridges
- Two Game Gear units
- One Gear-to-Gear Cable (sold separately)

Insert the game cartridges into the respective Game Gear units, connect the Gear-to-Gear Cable as shown in its instruction manual, and turn the power to both units on.

Select the Vs Mode and press the **Start Button**. Both players can select a team at the same time — you can even choose the same team! Each player then sets their starting lineups.

The first player to finish making selections will see the word WAIT appear at the bottom of the Mode Select screen. The game doesn't start until both players have completed their selections.

Note: The player who selects the Vs Mode gets the privilege of making most of the settings in the Mode Select screen. (The other player's screen will show only the AUTO option.) Player 1 also gets to choose the stadium.

Pennant Race

March through the pack all the way to the title! First, choose the length of your season. Then pick a team, and your team's divisional standings screen appears. Set your starting lineup, change game conditions, confirm your lineup and that of the opposition, and PLAY BALL!

Note: If you'd previously started a season, you must erase it in order to start a new one. To get rid of the old data, select YES with the **D-Button** or **Button 1** or **2** and press the **Start Button**. Selecting OK saves the original data and returns you to the Title screen.

The Playoffs

There are two leagues: the American League and the National League. Each league contains two divisions, East and West. There are 7 teams in each of the 4 divisions.

AMERICAN EAST			
	WIN	LOSS	M
1 INDIANS	1	0	68

5 ROCKIES	0	1	1

You must win your division in order to qualify for postseason play. That means you need to have the best won/lost record outright, or be in a tie for first. Anything less sends you home to watch the outcome on TV!

When the team in first place in your division (hope it's you) needs 9 wins or less to clinch the pennant, the letter **M** appears next to that team's won/lost record. The number to the right of the **M** signifies the number of victories that will make that team the division champs. If you're not in first when the **M** appears, you'd better give your team a serious pep talk!

If you win your division, you go up against the victor of the other division in your league for the League Championship, a best-of-7 series. The first team to win 4 games goes on to the World Series, in which you face the best of the other league this season. Give it everything you've got!

Pennant Continue

Select this mode to pick up where you left off earlier. Your team's current standings appear first. Press **Button 2** to view the next six games on your schedule (press again to return to the standings). You may face some teams in consecutive contests. Set your lineup and game conditions and continue on the path to the World Series!

Take It From a Veteran...

On Offense

- Getting your swing timed properly is essential for offensive success. It's also a good idea to learn to stop your swing partway, before the bat crosses the plate. These guys are masters at placement and changing speeds — don't let them make a monkey out of you!
- Play a well-balanced, strategic game — run-and-hits, sacrifice bunts and base stealing are all good ways to push runs across. The long ball is a thrill to hit, but that alone isn't enough to win.

On Defense

- When you're starting out, be sure to set the AUTO option in the Mode Select screen to ON. The Computer will control your fielders, until you touch

the **D-Button** when the ball is in play. Judging fly balls is the toughest part— get used to the controls before turning the AUTO function off.

- Throws from the outfield will not be cut, unless one of the basemen is in the line of the throw. Remember this when you're throwing home from center field!

From the Mound

- Vary your speeds and locations— a blazing fastball is exciting, but travels a long, long way when hit solidly. If you find that the other team continually hits a certain type of pitch, avoid it!
 - Become a master of control. Walks and hit batsmen create baserunners, which may result in runs that could have been avoided!
