Editorial

Well here we are again with another edition but we are a little late with this one and the reason, we decided to update our offset printing machine so we can keep up with all the quantity of magazines and books etc. There are a few teething problems at present so if you can be a little patient we will have everything under control here very shortly. With all these improvements we will be able to do the magazine more efficiently, therefore you will end up with a better all round magazine. Also at the moment T.T.S. is in the process of writing a new language for the SEGA which includes the third screen, YES, this screen utilises multi-color characters, sprites and can also be used as a text screen, at the moment all addressing has to be done in machine code. Also this new language (LIGHTNING), will be on an average about 20 times faster than basic III. Now you have heard the good news well it's time for the bad, for some people anyway, it will only be available for the SF7000 which will give the user well over 40000 bytes free!!!

=====

SOLAR CONQUEST

In the first issue of this magazine we spoke of a bug in the Solar Conquest game and explained how to fix it. It appears there is another and if you follow instructions as follows you will have no problems. PLEASE NOTE this is for the earlier version and should only be done if (R) is used to RETURN you to the list of COMMANDS. On the later version they use the GRAPH key to do this.

(CR)= PRESS CR KEY

First of all type :

LIST 183 (CR)

Now look along the line until you come to the word Rassa. If you change the R to a Y this will enable you to go to all the 20 planets instead of only 19 as was the case. Before if you tried to go to Rassa it would RETURN you to the list of COMMANDS. From now on Rassa will be known as Yassa. O.K. now you can press (CR) then press (HOME/CLR) key then type in (RUN) then (CR). I hope you enjoy this great game even more.

Inp/Out

Dear Editor,

Just a short note to draw your attention to a small inaccuracy on the masthead of your excellent publication.

You claim to be the first SEGA Magazine published in Australia, but as you can see from the enclosed copies of "SEGACIOS" - although you can claim to be the biggest and, arguably, the best - you missed being FIRST by just one month.

We forgive you and ask only that you make the appropriate correction in some future issue.

Yours faithfully,
John E. McLennan,
for the staff of SEGACIOS

Well John that is a surprise for us but as you will note our last 2 issues havn't mentioned the fact. And as for being the biggest and the best I am sure no one would dispute the matter having already supplied readers with 18 programs not including the Machine Code tutorial or any of the other valuable information in just 3 issues. THE ED

Basic Tips

It's that time again for all those people that need a little help with there problems and for me to help others with short cuts to help there programs run a little better.

People who have written in programs that have a number of LINE statements that draw the next LINE from the previous X,Y position can be made shorter such as follows.

```
10 SCREEN2,2:COLOR15,1,,1:CLS
20 LINE(10,10)-(100,100)
30 LINE(100,100)-(50,50)
40 LINE(50,50)-(10,10)
```

This can be shortened to...

```
10 SCREEN2,2:COLOR15,1,,1:CLS
20 LINE(10,10)-(100,100)
30 LINE-(50,50)
40 LINE-(10,10)
```

I hope this helps some people out there.

Gaming Around

This month we have a new list and some high scores to go with them!! Please note that some games which are listed are not available for sale yet! ZIPPY RACE, SEGA GALAGA

Post all of your scores to..

GAMING AROUND,
C/- T.T.S.,
P.O. Box 486
Coogee, N.S.W. 2034.

GAME	SCORE	NAME
=====		
BORDER LINE	120,800	TOM B
CHAMPION GOLF	-4	GRAHAM G
CONGO BONGO	32,400	JAMIE T
DEMON GOBBLER	38,400	TOM B
EXERION	74,100	GRAHAM G

MONACO GP	98,350	GREG H
STAR JACKER	65,800	LES K
VERMIN INVADERS	15,150	KEN S
VORTEX BLASTER	135,310	DAVE G
ORGUSS	45,200	JEFF L
SAFARI RACE	44,720	TOM B
ZIPPY RACE	473,600	GRAHAM G
SEGA GALAGA	220,560	TOM B
CHAMPION BASEBALL	11 - 2	GRAHAM G
PACAR	115,850	GREG H
N-SUB	45,350	DAVE G
SEGA FLIPPER	999,999	ROBERT B
POP FLAMER	76,000	GRAHAM G
SINDBAD MYSTERY	35,860	JOE F
YAMATO	145,340	IAN P
SAFARI HUNTING	33,230	KEN S

Any new scores will be put into the following edition so get cracking and go for it. Thankyou for the people who sent in there scores!

Adventuremania

This column looks like it's here to stay after the response I received from the people out there which have small problems. The most asked about adventure was Transylvania Castle of Horror which is not surprising as I said in the last issue that this adventure is for the slightly more experienced adventurers.

Now I will answer the most asked questions about Transylvania Castle of Horror.

(1) How do I get out of the first room, I have tried everything I know including killing the demon and finding the hole in the floor and going down it but every time I try to go any further I end up being killed?

Try the window after killing the demon, if you had noticed he had been stopping you from going out it before but when he is dead you are O.K. to use it.

(2) I have reached the pit but I can't get across it without being killed, thankyou for the help?

This is probably the easiest of the lot. What do you want to jump!!

(3) When ever I try to get across the bridge I end up breaking my neck, how do I get across without breaking my neck?

You sure are persistant so I would say just maybe that you could try another direction!!

Now for all the people out there that haven't gotten as far as some of the others, keep on trying !!

The riddle of the month had me a bit worried but I think I may have the answer. It was sent in by 13 year old Paul Mannion from Casula in N.S.W and it goes like this.....

Brothers 3 Sisters have I none but this mans father is my fathers son.

Could it be HIMSELF!! If I am wrong could you please write to me and make me feel dejected and beaten or if I'm right then write me another so I don't think I am better than everyone!!

Well that's all from ADVENTURE MANIA
signed Warped in The Head
(Graham)

Diskies

This month we have our Basic/Machine code program to save and load graphics from the disk to screen 2. The machine code is in lines 220 to 340. Make sure that there are no typing errors as this may cause the program to self-destruct!!

Draw up your graphics on screen two and then load in this program to save the screen onto a disk. The program is very fast at loading the graphics. So start typing.....
See you next month.

Machine Code

This month we list all of the Z-80 instruction set, next month we will start using these instructions to write sample programs and to explain what and how these instructions make your Sega work. Below is a listing of the register set. The LD commands are used to load these registers with the required data.

MAIN REG SET		ALTERNATE REG SET	
ACCUMULATOR A	FLAGS F	ACCUMULATOR A'	FLAGS F'
B	C	B'	C'
D	E	D'	E'
H	L	H'	L'

} GENERAL PURPOSE REGISTERS

INTERRUPT VECTOR I	MEMORY REFRESH R
INDEX REGISTER IX	
INDEX REGISTER IY	
STACK POINTER SP	
PROGRAM COUNTER PC	

} SPECIAL PURPOSE REGISTERS

Now for what most of you have been waiting for and that is the winners of the competition!!!!

FIRST PRIZE \$250.00 GIFT VOUCHER
D. Harper (NSW)
SECOND PRIZE \$100.00 GIFT VOUCHER
G. LANCE (QLD)
THIRD PRIZE \$50.00 GIFT VOUCHER
P. REED (TAS)
4-10 PRIZES \$25.00 GIFT VOUCHER
G. SHUFFLEBOTHAM (SA)
D. GARDNER (WA)
S. KENDAL (WA)
P. SMITH (NSW)
J. McEVOY (VIC)
C. DALE (NSW)
S. TAYLOR (NSW)

All prize winners will be notified by post within 14 days. Please note that the prizes can be used as a discount on items which cost more than the prize value! eg. SF 7000 \$549.00 less prize value \$50.00 would cost only \$499.00!!

We are sorry you all couldn't be winners but we will run more competitions in the future !! And for the people who didn't write in, you have to be entered to win!!

MAILING LIST.

=====
Anyone wanting to be on our mailing list just write to T.T.S. P.O. Box 486, Coogee, 2034.
