[stssparses@sega.co.uk](mailto:stssparses@sega.co.uk) | [technical@sega.co.uk](mailto:technical@sega.co.uk)

**OFFICIAL DISTRIBUTORS FOR:**

**INTRODUCTION**

Sega Total Solutions (STS) extend a warm welcome to both existing and potential customers to our 2017 Catalogue.

STS is the spares sales and technical support arm of Sega Amusements International Ltd, offering you our valued customer, the very best in dedicated Sega and 3rd party spares, redemption tickets, change machines and ticket eaters.

We pride ourselves on the quality of our service, whether it is spares sales or customer technical support. We are fully aware that you have a choice, therefore it is our solemn determination to make sure that you receive nothing but the very best service from the moment contact is made, to the time that your spares or repair order is received, and the machine in question is back in service and achieving optimum revenue.

We recognised some time ago that technical support is vital to the effectiveness of any operating machine, which is why we incorporate both our technical support and spares sales services within one division to achieve the very best outcome to any issue that you, our valued customer has the misfortune to experience.

Within this catalogue is a just a small selection of the 10,000 + items that we hold in stock. All from leading brands such as Sega, ICE, Triotech, Komuse, Wahlap, Simuline and Candy Floss, all mainstream manufacturers of high end electronic play to play amusement machines.

STS is also the leading European supplier of redemption tickets, selling over 1.6 billion this last year alone. Along with the Galileo tickets eaters and CM1 change machines, we truly offer a one stop shop.

Our ultimate aim is to help our customer optimise their revenue potential, and we look forward to serving you in the best way possible for many years to come.

We look forward to your continued support throughout 2017.

**116mm**

-  
**Height:**  
**75mm**

-  
**Capacity:**  
**500ml**

# TICKET EATER

## SIMPLY THE BEST

Players feed their redemption tickets into the Galileo Ticket Eater and the machine makes eating and burping noises to entertain players. As the tickets are eaten the machine displays the running total on a dot matrix display and then issues a voucher that can be exchanged for prizes at a kiosk.

The dot matrix can also be used for displaying customised messages and offers.

The Galileo Ticket Eater is designed to be used either as a stand alone machine or in conjunction with the Galileo Redemption POS terminal so players can save their points directly onto VIP cards.

**THERMAL PRINTER  
AUTO-CUTTER  
COUNTING SPEED  
- 640 TICKETS/MIN  
SACK CAPACITY  
- 90.000 TICKETS

(176CM WITH HEADING)  
WIDTH: 50CM  
DEPTH: 40CM  
WEIGHT: 30KG

# TICKET EATER TWIN

## NEW FOR 2017

After 10 years of success and the installation of thousands of devices worldwide, the Galileo Ticket Eater has evolved into a two player unit.

Introducing the Galileo Evo-Twin Ticket Eater.

The Mechanics and electronics are the same tried and tested as the GALILEO PRO

The centre piece is brand new eye catching design with LED "multi-colour" lights, The walls are completely transparent plexi-glass and frame made of aluminium specially designed.

**DIMENSIONS  
AND WEIGHT:**  
HEIGHT: 183CM  
WIDTH: 60CM  
DEPTH: 60CM

## REDEMPTION TICKETS

- **Express delivery service available from within 14 - 21 days**
- **Customised design especially to your requirements**
- **No charge for artwork**
- **Up to 5 colours per ticket**
- **Bar coding for increased security**
- **Our tickets work with all ticket eaters**
- **High quality, low - dust tickets to eliminate machines and sensors getting clogged with paper dust**
- **Our tickets are supplied throughout Europe and beyond**
- **STS supply generic tickets from stock**
- **2000 pack is either a 60,000 or 100,00 box**
- **3000 pack is a 90,000 box**
- **Bar coded tickets**

## TECHNICAL SUPPORT

### SEGA SERVICE CENTRE

In-house repairs & technical support provided worldwide to their customers and distributors, they turn the majority of repairs around within 3 days offering a 90 day workmanship guarantee on all repaired boards. SSC are a high-tech outfit utilising diagnostic tools and infrared rework systems enabling them to work through the most complex of logic problems to a successful resolve.

With a full range of dedicated test fixtures these technical specialists are equipped to handle diagnostics and repairs on all Sega games along with a plethora of games manufactured by ICE, Triotech, Komuse, Wahlap, Simuline plus many more.

The support team are on hand and ready to deal with all technical and setup enquiries with customers' new and used machines. All enquiries are handled by fully trained Sega engineers who have the faculty to remotely walk service engineers through onsite fault finding and repairs. If a resolution cannot be achieved remotely SSC will offer a 'Repair & Return' service or 'Advance Replace' the part where possible. 'Advance Replacement' can be offered on many computers and PCB's from Sega, ICE, Triotech, Andamiro and Simuline. Call one of their friendly service team members today and give them a try....
