# DAYTONA TWIN/ WING WAR

## FOR LOCATIONS WITH KNOWN LIQUID SPILLAGE TROUBLE

TO AVOID POSSIBLE DAMAGE DUE TO LIQUID SPILLAGE, COVER HOLES ON THE TOP COVER OF THE **PCB** CAGE ASSEMBLY WITH **VINYL PACKING TAPE**. BE SURE TO COMPLETELY COVER ALL OF THE SMALL HOLES ON THE TOP OF THE CAGE. PLACE TAPE BOTH INSIDE AND OUTSIDE OF THE LID. **DO NOT COVER ANY OF THE SIDE HOLES ON THE CAGE!!!!!! THESE ARE NEEDED TO ASSURE THE PCB IS PROPERLY VENTILATED.**
