

SUPER MONKEY BALL™

Guide your favorite Super Monkey Ball to victory by tilting and rolling them through crazy sloping courses! In five colorful worlds with 110 stages, you'll have plenty of banana-collecting fun as you speed AiAi, MeeMee, Baby or GonGon to the goal gate before the timer runs down. With each monkey inside of a transparent ball, you must tilt the device to roll the monkey past a range of obstacles such as gaps, slopes, narrow ledges and moving platforms. With a pinpoint control mechanism, players will simply tilt and turn the device to maneuver their monkey, accelerating and decelerating as they make their way through the colorfully animated world.
